

Photovoltaic cleaning roller brush configuration/parameters

M11
Household
electricity version

width
60cm

Accessory kits

15 meters of water
Tube + valve

Telescopic rod
3.5M /
5.5M /
7.5M /

Extend the electricity
Source line 8 meters

100v-240v to 24v
Power converter

Equipped with a power converter and 8 meters of wire, it can be used by connecting to 100v-240v AC, and can be directly connected to the water source / the pump can be purchased separately.

M12
Lithium
battery version

width
60cm

15 meters of water
Tube + valve

Lithium
battery pack

Accessory kits

Telescopic rod
3.5M /
5.5M /
7.5M /

Electronically
controlled spring wire

charger

knapsack

Equipped with a set of piggyback lithium battery packs, 24V/26ah, 8-10 hours of battery life; can be directly connected to the water source / can be purchased separately from the pump.

M13
Dual-purpose
version

width
60cm

Accessory kits

Lithium
battery pack

charger

15 meters of water
Tube + valve

Telescopic rod
3.5M /
5.5M /
7.5M /

Electronically
controlled spring
wire

Extend the
electricity Source
line 8 meters

100v-240v to 24v
Power converter

knapsack

The combination of lithium battery version and mains version provides two power supply solutions, free choice, direct connection to water source / separate optional pump.

The product name	Electric photovoltaic cleaning roller brush (can be dry cleaned/washed)	
Telescopic rod	Length (M):1.5/1.8/2.1 Diameter (MM):35/39.5/43	Number of stanzas (section):3/4/5 Wall thickness:1MM Material:Aluminum alloy
Drive the motor	Name:DC motor Voltage:DC24V	Total power:120W Rotate speed:350/min
Brush head	The width of the brush disc (CM):60 Cleaning width (CM):60	Service life:1-2 years (Frequency of use) Material: Nylon wire
Wire water pipes	Wire (M):Household electricity 16 Lithium battery 8	Water pipe (M):15
